## ANTI-JAP LAW UPHELD

**ALIENS ARE BARRED  
LAND OWNERS IN  
WASHINGTON STATE**

(BY A. P. NIGHT WIRE.)  
SEATTLE, July 25.—The Washington State anti-alien land law was upheld today in a decision filed in Federal court. Judge Gilbert of Portland and District Judges Ed. Cushman and Jeremiah J. Neterer of Seattle joined in the decision, which prohibits aliens to own or to lease land in the state, and penalizes citizens who enter into leases with aliens. The law, which was passed by the legislature in 1917, was challenged by Frank Terrance of Seattle, who sought an order from L. L. Thompson, State Attorney-General, from enforcing the statute.

## GREEKS CHEER VICTORY IN FRENZIED ENTHUSIASM.

**Despite Defeat of Turks Many Objects Remain to Be Accomplished; Kemal Plays Strategy.**

(BY LARRY RUE.)  
(BY CABLE-EXCLUSIVE DISPATCH.)  
(Copyright, Chicago Tribune.)  
SMYRNA, July 25.—Notwithstanding the successes of the tremendous Greek advance in Asia Minor, the original objects of the offensive remain still to be accomplished, viz, the capture or capitulation of Mustafa Kemal Pasha or the overthrow of the Nationalist government and the substitution of another, with the signing of a treaty guaranteeing what the Greeks regard as their rights in Anatolia.

Although the Greeks are celebrating their Smyrna victories in Athens and the Hellenic world is frenzied with enthusiasm, the leaders know the bulk of the original difficulties are still confronting the troops, but they still hope the success of the drive will weaken Kemal politically and give rise to a more conciliatory government in Ankara.

Scenes at the front today were a part of the drama of the Twelfth Division, which was the move from four in the morning until ten at night, in an attempt to cut off the retreating Turks from Kutula. However, though averaging twenty-two miles a day through narrow mountain passes and arriving from Smyrna, the Greeks found the Turkish forces had retreated to a point within a few days of the city, and the Greeks failed to establish contact with the fast-retreating Nationalists. The Turks in their retreat abandoned great quantities of war material.

**FLESH TINTS THE RAGE.**  
You Have to Look Twice to See Where Skin Leaves Off, in Deauville, Now.

(BY HENRY WALES.)  
(BY CABLE-EXCLUSIVE DISPATCH.)  
DEAUVILLE, July 25.—Mauve has been devalued as the chic summer color, and yellow, ranging from brilliant orange to the faintest rose, has taken its place at this center of recreative Europe. Everywhere one sees yellow, yellow and red, because everyone is now halfway through the sun-burning process and has reached the tint of boiled lobster about the time it is taken out of the saucepan.

Yellow robes, yellow hats, yellow veils, yellow stockings (if any), yellow sashes, yellow scarfs tied around the wrists, yellow sunshades, yellow handbags and yellow and white buckskin slippers are everywhere. Some of the more striking costumes are of vivid orange, showing splashes of golden color in the sunlight. Others, the more daring are the nearest approach to flesh color that ever has been reached. One has to look twice—often three or four times—to see where the material in the low-cut, V-necked bodices begins, and where the cuticle of the skin subject to sunburn, and lost at the Potinere as to whether an approached pair of female limbs were stockinged or stockless, so sheer and life-like is the new tint of hosiery.

A good deal of mauve is still seen, however. Fine, thin mauve chemises robes, almost translucent, cut V-shaped in back and in front to the waist, with a black underveil and the black straps over the shoulders showing through, is one of the models attracting most attention.

Deep scallops on the hems of dresses, often six or eight inches long, are seen too, and they give the effect of fringes.

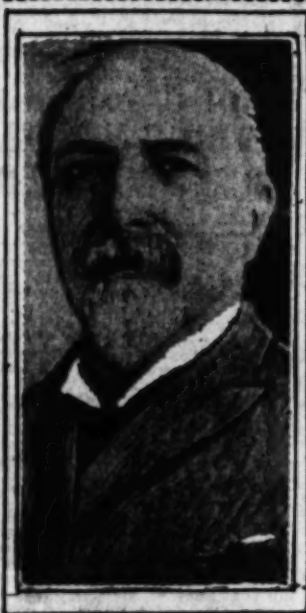

Sleeveless dresses are worn generally, the shoulder straps and neck being cut on the same pattern as that of the bathing suit, so that there won't be two different areas of skin subject to sunburn. When the exposed portion of shoulder, neck or throat is different in the bathing lights from the afternoon dress, the result is a zone of lighter red, between the natural white skin and the brown tanned portion.

**FRENCH DECORATION  
GIVEN WAR HEROES.**

(BY A. P. NIGHT WIRE.)  
SAN FRANCISCO, July 25.—The Fourragere of the Croix de Guerre was presented 200 or more California veterans of the former First Division by their former commander in France, Maj.-Gen. Charles F. Summerall, in the Civic Auditorium here tonight. Gen. Summerall paid high tribute to the men decorated, all the other survivors and eulogized those who made the supreme sacrifice.

## CIVIL WAR SPEED STILL WITH HIM.

Col. Robert C. Clowry.

TARRANTOWN (N. Y.), July 25.—(By the Associated Press.) Col. Robert C. Clowry, aged 32 years, former president of the Western Union Telegraph Company, boasted today that he could send Morse code messages as clearly as when he used to send telegrams for Abraham Lincoln at Springfield, Ill., before the Civil War.

He demonstrated it to the satisfaction of the Old-Time Telegraphers' Association when he sent a message over a direct wire to E. C. Newton, 12 years old, at Little Rock, Ark., who was a telegraph operator with the Confederate army. This is what he typed off: "It's a long time from 1861 to 1921, since we were both young fellows and worked the key, you might as well say I'm a star and a stripe, and I under the Stars and Stripes. We both did our duty and to another country. I'm waiting to extend the familiar 73."

In telegraphic code the figure "73" means "good night."

## GERMANY IS READY FOR PEACE.

**Wants Harding to End the War by Issuing Presidential Proclamation.**

(BY CABLE-EXCLUSIVE DISPATCH.)  
BERLIN, July 25.—The German government has agreed that President Harding issue an official proclamation of peace between the United States and Germany, thereby ending the present indefinite situation.

It is learned from most reliable sources that the four powers between the American commissioner, Loring Dresel, and the German minister, Dr. Rosen, have now ended all the American's questions having been answered, the chief of which was Germany's view of what legal action would be necessary to make the Porter-Knox resolution effective.

Germany replied that a Presidential proclamation would be the best way to end the war, and that it would be possible for ambassadors to be named and for the form and content of such a Presidential proclamation, which have been sent to Washington.

However, the authorities deny that these German views have anything to do with the desire of the future peace treaty.

Definite information was obtained today that Spurgin was in Chicago as late as Friday of last week. A man called to the house to assist in packing trunks and who knows him well, saw him and talked with him there. The day following the same man was informed that there was trouble at the bank and that Spurgin had already fled the city, leaving instructions for his wife and daughter to pack up everything and join him near the Canadian line. It was said that Mrs. Spurgin and her daughter had been in the city for eight days, and most of this has been exhausted.

## NOTHING LESS WILL SATISFY, DECLARES OFFICIAL ORGAN; PATH TO PEACE IS DIFFICULT

(BY CABLE AND ASSOCIATED PRESS.)  
LONDON, July 25.—Nothing less than national independence will content the Sinn Fein leaders. The Irish Bulletin, official organ of the Dail Eireann, makes this declaration from the headquarters in Dublin.

While nothing is actually known of the nature of the government's proposals beyond the general outline of dominion home rule and fiscal autonomy, the Bulletin contains an outburst against the assumptions of the British press concerning the negotiations, which appears to show that the proposals are unsatisfactory so far as Southern Ireland is concerned.

Recklessness is expressed at hints in the British newspapers that there would be a revival of the "military terror" unless the so-called "concessions" were accepted. "But," declared the Bulletin, "the Irish people will agree to nothing which denies the ancient unity of Ireland or seeks to impose on the nation domination of any kind."

This outburst, which incidentally repudiates any wish to coerce Ulster, is taken in certain quarters to be more of an expression of impatience with the protracted negotiations, which the Bulletin declares to be a breach in the negotiations, generally that the path to peace is likely to prove long and difficult.

According to Associated Press dispatches from Ireland, the government proposals include a plan to recognize the Irish Republic as a base, eliminating the military element and disbanding the auxiliaries. This would be an important concession to Irish feeling.

Famously De Valera, Republican leader, took up with the members of the House of Commons yesterday, the British proposals, preparatory, it is understood, to submitting them to the Dail Eireann.

## WIDE SEARCH FOR SPURGIN.

**Head of Defunct Chicago Bank Was Also Mixed Up in Iowa Failure.**

(EXCLUSIVE DISPATCH.)  
CHICAGO, July 25.—Search for Warren C. Spurgin, missing president of the Michigan Trust Company, today extended to all parts of the United States, Canada and Mexico. Expected watch is being kept upon Canadian ports, as it is believed Spurgin is headed that way. Six depositors of the defunct bank today filed a bill seeking the appointment of a receiver. It is directed against Spurgin and all other officers of the institution.

There were also lively intimations that others beside Spurgin are concerned in the \$1,500,000 missing from the funds of the institution. This information came at the same time the bank officials learned of Spurgin's difficulties in a bank at Panama, Iowa, twenty years ago. At that time Spurgin had departed for Florida and remained until the troubles were adjusted. Three months ago, it is said, Spurgin went back to his hiding place in Florida and the question now is being asked if he had in mind at that time a repetition of his Iowa experiences.

Mrs. Spurgin and a daughter have been traced to Detroit, but police officials and detective agencies do not believe Spurgin himself is within 100 miles of them and that he is using them to throw his pursuers off his trail. There is reason to believe that when Mrs. Spurgin was in California, in 1912, and from whom he separated a year ago, is receiving \$150 a month and she now demands an increase to \$200. In a plea to the court for increased alimony she declares that it is impossible to support herself in society on \$150 a month.

His first wife, to whom he was married in Racine in 1899, and from whom he was divorced in 1905, is receiving \$100 a month alimony. The second wife, whom he married in California, in 1912, and from whom he separated a year ago, is receiving \$150 a month and she now demands an increase to \$200. In a plea to the court for increased alimony she declares that it is impossible to support herself in society on \$150 a month.

Definite information was obtained today that Spurgin was in Chicago as late as Friday of last week. A man called to the house to assist in packing trunks and who knows him well, saw him and talked with him there. The day following the same man was informed that there was trouble at the bank and that Spurgin had already fled the city, leaving instructions for his wife and daughter to pack up everything and join him near the Canadian line. It was said that Mrs. Spurgin and her daughter had been in the city for eight days, and most of this has been exhausted.

## DISAPPROVE FORD PLAN.

**Offer for Muscle Shoals Too Low.**

**Secretary Weeks Issues Statement Citing Unacceptable Conditions.**

(EXCLUSIVE DISPATCH.)  
WASHINGTON, July 25.—Henry Ford's proposal to lease and purchase the government's \$100,000,000 dam and war plants at Muscle Shoals, Ala., will not be accepted by the administration on the terms submitted.

Secretary of War Weeks made this disclosure today in issuing the text of the Ford offer and citing some of the conditions stipulated by Ford, which are deemed unacceptable to the public interest.

It is said to be a modification of the offer to the extent considered necessary to make the bargain a fair one for the taxpayers, whose millions built these plants and to safeguard the public interest through future generations, the administration will be willing to continue the negotiations.

ANOTHER OFFER.  
Secretary Weeks also said he had been advised that another corporation is preparing a tender for the Muscle Shoals dam, and that no decision would be reached until all offers submitted could be studied.

Any one who can obtain these properties on the terms Ford proposes, would have a bonanza, according to one official, who said that under the proposed contract the government assumes all the risks, putting up all the money and getting back a limited amount, while Ford is to assume no risks of any consequence and is to enjoy all the important safeguards.

Secretary Weeks said the very first condition—that the government guarantee 600,000 horsepower at the Wilson Dam—never would be accepted by the government, because it is uncertain how much power can be developed.

OBJECT TO LONG LEASE.  
Special objection is raised to leasing the Muscle Shoals dam and hydroelectric power plant, when completed, for 100 years on any lease, which may be revolutionized by unforeseen developments in the availability of mechanical energy in future decades, particularly in view of the statutory limitation to fifty years of the water power grants.

## WANTS BUSINESS AIDED.

**Harding to Advocate Broadening Powers of War Finance Corporation.**

(BY A. P. NIGHT WIRE.)  
WASHINGTON, July 25.—Broadening of the powers of the War Finance Corporation, making it the great government agency for bringing about the necessary economic readjustments, will be suggested by President Harding tomorrow in a special communication to Congress, according to forecasts tonight.

The special letter, it has been announced, will deal primarily with the proposed settlement between the government and railroads. But according to statements by administration leaders, it probably will go further and recommend not only that the War Finance Corporation take charge of the railroad settlement, but also that it be placed in direct and practically sole charge of farm credits and export financing.

APPROVED BY MELLON.  
Secretary Hoover said today that he had recommended such a plan and that his recommendation had been approved by Secretary Mellon.

Investigation, he said, had convinced him that the triple problem, was the proper course to pursue.

Funds for speeding up business, he asserted, could be made available.

# Mormons' Utah Arrival Shown by Pageantry.

(BY A. P. MOUNT WIRE)  
SALT LAKE CITY, July 25.—Featured by pageantry depicting the entrance of the first band of pioneers in the Salt Lake Valley, a special program was furnished today at the mouth of Emigration Canyon, at the spot where Brigham Young, on July 24, 1847, uttered the now famous words, "this is the place."

The spot at which Brigham Young made the historic remark is marked by a buffalo skull monument on which appears "this is the place." It plays of the Mutual Improvement Association of the Mormon Church are completed, it was announced, the entire trail of the pioneers across the plains will be marked at intervals by buffalo skulls similar to the marking of the old Spanish trail through California with mission bells.

## ANGELS GOING AT FAST CLIP.

Killefer's Leads in Rare Shape and Pounding Pill.

Sacramento Here Today for Seven-Game Series.

Vernon Treks to Portland to Tackle Ducks.

BY ED O'MALLEY.

Go—but the Angels did not last week against Bill Kenworthy's Indians and unless all signs fall, that self-same scoring is more than likely to continue.

Of course it looks all over like San Francisco at present for the coveted piece of mullin, but the old Seals, while undoubtedly traveling on velvet just now, have a hard grind before them as they clash with the Morones this week and then something is liable to happen.

**EAST SAILING.**  
The Graham squad by grabbing twenty out of twenty-one games from Portland have had easy sailing thus far, but things might not break as prosperously for them when they look up with the stronger clubs. Local fans are beginning to perk up over the Angels' chances for the season. The heaving staff at present is going along smoothly, and taking everything into consideration it is undoubtedly the best in the league. Arriving accidents during the remainder of the season. Killefer's chukkers should keep up the high standard of work that has characterized many of his efforts in the last few weeks.

**SOME PLEASURES.**  
It is a source of pleasure to many of Lefty Thomas's friends to see the pitcher rounding into his best form. A winning streak for him from now on would be of invaluable aid to the Cherubs. Tom Hughes, projecting a whale of a game. Alridge appears to be rounding into his best fettle and Old Doc Crandall is making many of the dangerous batters hit at bad ones. Lindimore, who played indifferent ball in the early part of the season, is beginning to show his real worth. He batted like a tarrier last week and some of his fielding stunts on the sensational. If Lindy can maintain the sticking work that fattened his average last week, he would add great strength to the Cherubs' offensive work. Art Griggs is mauling the old union unmercifully and his UH last week fence for a homer, was the longest smash ever seen at Washington Park, even eclipsing Pete Schneider's famous wallop last fall.

**OH, YOU DIXIE!**  
Dixie Carroll is also showing that form that made him an idol of Southern League and Little League. States is just tearing up things around the center garden. The strapping bide fair to be a real sensation before the season is over. His footness, both on the field and bases, is often greeted with salvoes of cheers. Mackley, Nishoff and Crawford are all playing high-class ball and are helping, in no small way, to make the Angels the best-balanced team in the league. The burden of most of the backstopping has fallen on Baldwin's shoulders since Stange injured his leg. The red-top, however, has been doing excellent work and displays a lot of pep at times. His understudy, Casey, shows that he can step in when needed and catch a pretty good game.

**SACS ARE HERE.**  
The week beginning today, Los Angeles hooks up with the strong Sacramento team headed by wild Bill Rodgers. The seven games should be a great series and are almost sure to be replete with tense situations. The Senators walloped Bill Eslick's lads four out of seven last week, and are just a rarity to get another whack at Red Killefer. Vernon played rather indifferently last week. The old Tigers just seem to be getting into the swing. We still have faith in them and would not be surprised to see them turn around and play great ball for the remainder of the season. They take on the Beavers at Portland this week for seven games. They figure to take about five of the seven and may do better. However, no matter how poorly they are playing now, these self-same Tigers should about play havoc with some of the first division clubs in their try for the pennant before many weeks have passed. Once the old Max Hogans get in their stride, they are liable to spring the Boston Braves onrush in 1934—an onrush that swept everything before it. Now, he bugs don't get it into your heads that the Bengals are done for this year—there is still a few kicks left in Bill Eslick, and when those kicks get to working, something will have to stand from under.

**GIANTS BUFFETED.**  
(BY A. P. MONT WIRE.)  
PITTSBURGH, July 25.—Effective pitching by the veteran, Babe Adams, together with sensational fielding and hitting by his teammates, enabled Pittsburgh to defeat New York today, 4 to 2. Max Carey, Pirates' centerfielder, had eleven put-outs. The score:

**REVIEWS.**  
**"LIFE" IS LIVELY.**  
SO IS NEW KIDNIE'S REVUE AT GRAUMAN'S THEATER.

By Edwin Schallert.  
"Life" is a title that might be applied to the entire program this week at Grauman's Theater, without hurting anybody's feelings. The show starts with a critic-proof kiddie revue that would shake even a hard-boiled egg loose from its moorings and finishes with the William A. Brady production, "Life," which is blue-blooded melodrama of the most reputable lineage, as full of action as a cricket is of ticks. I could describe the kiddie's revue in detail, but what is the use? You wouldn't believe the half of it, anyway, because this revue is so different from the general run, and yet it is, because it is so unusual a full of pep and personalities. The best of the personalities, of course, being the little jazz baby with the grown-up legs and the shimmy-shaking disposition. Personally I haven't the least use or respect for the kiddie's revue with its precious youngsters, but the public will like this one.  
Somebody certainly tried to pump all the oldest and darkest wells of melodrama dry for the film "Life." Really the picture is a terrible strain on its title. But then, let that pass. It isn't slow and it isn't tedious, so in that respect it hits somewhere near the mark.  
The speed is just about the same as in "The New York Sings." If you remember that, and the theme is about as uplifting. But you have your villain and your hero, and a prison thriller, a prison escape, and the final show-down with everybody good winning the silver cup, and all the best talkies of the last year, so it doesn't matter much whether "Life" is lifelike, so long as it's entertaining, provided one is looking for that kind of entertainment.  
The production, as a whole, isn't wearing on anything except the pleases of the audience, and helps to make the audience forget the hot weather and the high price of gasoline. And the cast is exceptionally good with Jack Mower, Red Yezzer, pretty Arline Phipps, Nina Sides, J. H. Gilmore and Leeward Meeker leading it, with homey comedy going also to Geoffrey Stein and Effingham Pinto (not a horse).  
The Grauman show won't disturb anybody's digestion, and will make things seem cooler than they are.  
Chaplin and Lloyd.  
Comedy-seekers are having a joy feast in the fact that two of the most amusing pictures ever screened are being revived this week. One is Charlie Chaplin's "Shoulder Arms" and the other Harold Lloyd's "Haunted Spooks." Both of them are showing at Miller's Theater.  
Chaplin's war picture is a classic of the period, while Lloyd's film started him on the big highway to fame. The revival has been making a great hit with audiences.  
Ship Nelson Reed.  
Early showing of the John Barrymore production of "The Lotus Eater," which was made by Marshall Neilan, is indicated by the fact that the negative was shipped yesterday to New York. The title has been changed to "The Hidden Paradise."  
The picture was started in Los Angeles after which the company went to New York, where they were joined by Mr. Barrymore, and then to Miami, Fla.  
Following the completion of the eastern work, more scenes were made in California.  
Beside the star, the cast includes Colleen Moore, Anna Q. Nilsson, "Wee-wee" Barry, Lucy Fox, J. Barney Sherry and others.  
Like Honeymoon Locals.  
So well did Charles J. Brabin, Fox director, and his bride, Clara Barr, like the locale of their honeymoon that they have sought a tract of land to establish a home there. They visited Nova Scotia on the Bay of Fundy, and have just returned to New York, where Mr. Brabin is soon to commence a new special feature.  
Exclusively for the Fair.  
Women who like to get beauty hints will probably be in large attendance at Grauman's Rialto Theater this morning, as an actor, artist's model, is to demonstrate at an exclusive matinee the method by which she attained her beauty laurels. In so doing she will perform various dances and exercises, beside answering questions put by the audience. The matinee will be repeated Friday morning.  
And, incidentally, men are out.  
Garters Didn't Fit.  
Frederic Kovert, the dancer, has a part with Louise Glaum in her latest picture, "I Am Guilty," now showing at the California Theater. In one of his dance scenes he appears in feminine make-up, and while the picture was in process of filming Kovert in his gorgeous gown, his blonde wig and other feminine paraphernalia met with a number of humorous experiences out on the lot.  
Having borrowed a pair of garters on day from the mistress of the wardrobe, Kovert, an hour or so later, wearing his masculine garb, sought to return them.  
"You didn't get them from me," declared the costumer as she met the garter's return with suspicious gaze.  
"But you gave them to me yourself," persisted Kovert, and when she took the garters, but won the argument with a vigorous two weeks' engagement at the Pantages Theater in San Francisco.  
Miss Tanguay plans to rest a week at the beaches before resuming her vaudeville tour. She spent yesterday

afternoon looking over the few vacant bungalows available at Santa Monica, Ocean Park and Venice, and this morning will be settled down for as quiet a vacation as her "don't care" constitution will permit her to enjoy.  
The Tanguay engagement in San Francisco, originally planned for one week, lengthened into two, and the end of the second week found the capacity of the theater still unequal to the demand. Hundreds were unable to gain admittance each night, and to care for a part of this overflow seats were placed upon the stage and in the wings during Miss Tanguay's act. Among her souvenirs is a photograph of herself in her act with rows upon rows of folding camp chairs ranged across the stage behind her and all occupied.  
The local management of the vaudeville star begins at the New Pantages Theater next Monday.  
Freckles to Show as is.  
Wesley Barry, "the freckled-faced kid," who has been starring in the movies for two years or more, is now being featured in Gus Edwards' story "School Days." It will be seen on the screen beginning September 1.  
As one of the foremost features of "School Days," Wesley Barry's red hair and freckles will be brought before the public in their natural colors. This has been made possible by the invention of an entirely new process. It is said, which has recently been perfected by a New York inventor, according to a statement issued by Harry Rapf, who produced the film.  
The color process is a most expensive detail, but the fact that the popular juvenile star was so admirably adapted to the scheme prompted Mr. Rapf to embody this idea in the film.  
The opening scenes will portray Wesley Barry working "it easy" in "the old swimming hole" garbed in nature's raiment. No one has ever attempted to enumerate the freckles of that freckled face, but it has been estimated that figure well over 2,000,000 would be reasonable.  
Benefit for League.  
The Ambassador Theater will be turned over to the Assistance League tomorrow afternoon for the weekly matinee, which the organization gives to raise funds for the various children's charities. The matinee is strictly for the benefit of the proceeds being devoted to this cause. A feature picture will be presented, and the Ambassador orchestra will render a musical program.

**DELAY IN BUILDING SCHOOL PROTESTED.**  
**BOYLE HEIGHTS DELEGATION TOLD WORK MUST AWAIT SALE OF BONDS.**  
Representing the Boyle Heights Improvement Association, a committee composed of Mrs. R. H. F. Variel, Mrs. C. B. McClure and W. J. Miller appeared before the Board of Education at its regular weekly meeting last night and requested an explanation of delay in the construction of the high school proposed for that district.  
"We are a community of 75,000 people," said Mrs. Variel. "We voted in favor of the school bonds by a majority of 17 to 1. It was our luck getting the sale of these bonds was to be applied toward a high school for Boyle Heights."  
"It has been necessary for the children of our community to be sent out all these years to cross the city to great distances in order to gain a high school education and there are hundreds who have been denied this because of the expense, length of time and dangers of the long journey."  
It was explained by various members of the board that on May 9 the district of Boyle Heights was authorized to prepare plans for the Boyle Heights high school, the total expense to be \$1,250,000, made up of \$750,000 for the land, \$250,000 for equipment and \$250,000 for the building. The land was purchased out of the \$2,000,000 sale of bonds, but until more bonds are sold, no definite promises can be made by the board regarding the date upon which construction will begin.

**SONG WRITERS ARE HIT AT ORPHEUM.**  
It isn't every day you get a chance to see a bunch of song-writers in captivity together. But you can see a whole cluster of them at the Orpheum this week in a clubby, informal musical act as delightful as it is novel, called "A Trip to Hollywood."  
The experts are Bobby Jones, Billy Fiske, Bernice Brown, Leon Flatow, Ed Rose, Will Donaldson, Ted Shapiro, Willy White, Martin Ford and Harry Brown. "Every body Wants the Key to My Cellar," "Laughing Vamp," "Mammy's Apron Strings," and others. Incidentally, the boys are crazy like a fox thus advertising their goods. Also they're in luck getting the sale going and coming-salary and song sales.  
The bill is a bit top-heavy with singing and dancing, with the comedienne, though her easy way of working fools you into thinking she isn't doing much. Her comedy asides to the audience are the best thing she does, but her songs are as atmospheric for a scene he was taking.  
Wickham Will Dance.  
William Wickham, dancer, and Charlotte Evans, his partner, will appear in the benefit performance to be given on behalf of the Woodcraft League, next Friday and Saturday evenings, at Philharmonic Auditorium. Their dance will be known as the "Slater's Waltz."  
"Twin Flats" a Mix-up.

**NEW YORK PLAYS BOOKED HERE.**

Two strong stage attractions are already booked for a Coast tour next season. One is "Abraham Lincoln," by John Drinkwater, which had an exceptional run in New York, and the other is "East is West," in which Fay Bainter is starred. Miss Bainter herself is at present in Los Angeles, but will return to the East in the fall to commence the tour with "East is West." The item of transportation, nowadays of tremendous import in the theatrical game, is being arranged by William Harris, Jr. The Coast ticket for the "East is West" company will cost about \$600, this sum to be delivered to the railroad company upon the start of the tour. Additional payments will subsequently be made as the trip progresses.

that popular ditty into a real classic. Mercifully short and really clever is the dog act presided over by Max York. Edward Marshall, chalkologist, who draws your picture while you wait, scored heavily yesterday, and Homer Romaine, opening with some fifty trapeze stunts, cornered a hit. Jack Norton and Queenie Smith and their pretty girls remain over.

**"IDOL OF THE NORTH" IS A REAL THRILLER.**

We say we're weary of western pictures, with their everlasting brawls and their rubber-stamp plots. Then all of a sudden one is sprung on us that is so full of ingenious, human interest and other good qualities that we contract the western-picture crass all over again.  
Such a picture is "Idol of the North," from J. Clarkson Miller's story, showing at Tally's. It has the nerve and go of the old westerns they used to make down at Ince's, and you sit on the edge of your seat as its fascinating happenings unfold. Free, fiery, elemental is the dance-hall heroine of "The Idol of the North." She's a sort of Diana of the Dumps, managing to preserve her decency through all sorts of trials.  
No one will ever play this type of role. I'm sure, as Dorothy Dalton does it, with such strength, conviction and sure-fire dramatic style. As the girl, abandoned in winter at the door of the northern dance hall when her father dies, first becoming the roughest maid of the dance-hall girls, and then being thrust into the star of the place herself, Miss Dalton triumphs.  
Married to a piece of human driftwood who is made drunk through the rough offices of a bunch of miners, because said miners are sons of her because of her "high mightiness," she brings him through an illness and afterward comes to love him. He turns out to be a gentleman, and he in turn falls in love with her. The picture is a real triumph for the director.  
Edwin August, as the hero, does some very fine work. Marguerite Marsh is a very pretty vamp, and others of the cast accomplish success. The direction is first class. Tom Grogan being mentioned as "supervising director." It is a real triumph for him.  
If you have a taste for fresh plot, swift action, fine acting, don't miss this one.  
An unusually clever little Vandy comedy, and a new weekly complete a very pleasing bill.

**UNIVERSAL ENJOYING SUMMER VACATION.**

Something of a let-up in work is reported at Universal. This, however, is merely the usual summer quietude, say officials, and the plant will be running again full blast in September.  
At present the policy seems to be to give each company a vacation until September 1, as fast as it finishes work on a picture. Thus there will be some companies, which have just begun work, including two aerial outfits, that will not cease activities.  
Mr. Mayo is accompanying Leopold Godowsky, the noted pianist, who is to tour Mexico on a concert trip. Besides Mr. Godowsky, his wife and two daughters will go with him, one of whom is Dagmar Godowsky, known to film fans. The party expects to leave in course of two or three days.

Roscoe Arbuckle Comes Home.  
Roscoe Arbuckle has returned from his trip to Chicago, where he went to take scenes of his current picture, "Freight Prepaid." He reports that Chicago is hotter than hell now any place, outside that place whose temperature we know only by report, could be. He also reports that a picture actor in Chicago has no more privacy than the w.k. goldfish, at least while he's at work.  
"One morning we were to take a few scenes in the Loop district, and tried our best to keep the fact quiet," said Arbuckle. "It took us over an hour to break through the crowd and to line our cameras up for action."  
"The machine in which Lila Lee and I rode was mobbed, and I informed her that now she wouldn't have to go abroad for the sensation encountered in the Windy City was exactly like the way the Parisian crowds greet picture stars."  
However, one thing Fatty accomplished in his great joy. He got even with some of the taxi drivers for their high prices, or at least he did. Jimmy Cruise, did. Jimmy used them, unknown to themselves, as atmosphere in a scene he was taking.  
Lola Bridge, as the mother-in-law of old-fashioned home, stole all the show yesterday, and she'll probably continue all the week. A Bridge is the debonair clubman who meanders into the wrong flat and falls into the wrong flat. Jim Phillips and Olga Brooks and his unhappy newlyweds in whose flat

## DAILY TRADE TALK.

### Los Angeles Banks Should Present a Solid Front to A. B. A. Delegates.

BY CHAPIN HALL.

Just a word about co-operation. More than ever before in the spirit abroad in the land. Through it all things are being made possible. It is what has made Los Angeles great. It is what will make her greater. It is no longer considered good seamanship to knock the other fellow's goods. City building does not include casting aspersions upon one's competitors. There is room for every legitimate, honestly conducted business.

So much for that.

There is a new note of respect for Los Angeles throughout the financial world.

By every formula known to this world of dollars and cents Los Angeles should be timidly standing upon the threshold, hat in hand, respectfully seeking the crumbs of credit. (Mighty poor picking, by the way, just now.)

Instead Los Angeles stands four square to the wind, her sails all set, under full headway, and in a position to extend a helping hand to her fortunate competitors.

Next October this city will be Mecca for the leaders of finance and business from the four corners. It is important that we present a solid, typical Los Angeles front of resourceful, conservative optimism so that when these captains of finance, industry, commerce and business return to their own homelicks they will carry with them the thoughts that here is a united people, banded together for mutual welfare.

Some of these men are professing wonder as to why and how Los Angeles is in the advantageous position she occupies instead of on her back kicking for help.

The annual convention of the American Bankers' Association should be given the answer. In a word it is co-operation.

There is already a well-developed amity among the bankers of this community, but it should be developed and strengthened between this time and October 1.

Such differences as exist, if there be any, should be ironed out and settled. There is nothing that cannot be adjusted easily by the type of men who head our great financial institutions.

The way to get results is to work together. The saying is true, especially in its local application, but it cannot be too strongly emphasized at this time. There should be no room for petty differences in the big work which is before us.

In this connection Trade Talk would quote a paragraph which appears in a recent communication to members of his official family from Andrew M. Chaffey as one of the finest expressions of this spirit we have seen.

"During a long business experience I have made it a practice to frankly and cordially commend any competitor who was worthy of respect, and when you are talking to our customers, with the pardonable pride I know you must feel in the latest statement of our own bank, I hope that you will not hesitate to tell them also that your competitors are in such extraordinarily fine condition that the banks of Los Angeles are in a unique position in the world today."

### BUSINESS NEWS.

There was a brisk trading yesterday on the floor of the Los Angeles Stock Exchange in Goodyear, preferred.

During the session 388 shares of this stock changed hands, and in the face of fairly liberal offerings the price advanced from an opening at \$10.00 to a strong close at \$10.75 with \$1.00 bid.

Reports from the tire manufacturing centers are increasingly encouraging, and production is being steadily advanced. There is said to be a general recovery in the tire industry, a circumstance which the public is evidently taking into consideration.

The high for the market was \$10.75. Several thousand shares of Republic Petroleum were also involved in the day's proceedings which were on a generally more active scale than last week. This stock was steady at \$14.25.

Delaware Union was strong up to 15.35; Los Angeles Investment at 15.00; and several thousand shares of United American Mining went over at 14 1/4 cents.

**DIVIDENDS.**

Olinda Land paid a regular quarterly dividend of 1/4 cent a share, and an extra dividend of like amount yesterday.

Amusement No. 16 of 1/4 cent per share, payable by Outman United, becomes delinquent tomorrow.

**WAX RISK INSURANCE.**

Over \$1,000,000,000 of United States government life insurance has been applied for and the application approved. Of this amount \$1,000,000,000 has already been awarded in meeting insurance claims.

The most popular policy is the twenty-year endowment which 43.7 per cent of the service boys have adopted. The average size of these policies is \$23,149.11. Next comes the twenty-payment life, and then ordinary life.

A new ruling by the Treasury Department permits a war-time service man to reinstate and convert his policy, no matter how long lapsed, at any time before January 1, 1922 upon payment of only two monthly premiums in the amount he wishes to reinstate together with a satisfactory statement of health.

### SILK IMPORTS GROW.

The people of the United States will have their silks irrespective of the demand or supply of other articles of daily requirement, says a statement by the National City Bank of New York. While the quantities of nearly all other classes of manufacturing material imported show a big fall in May, 1931, as compared with May, 1930, silk imports show a big increase, standing for the month of May, 1931, at 4,438,000 pounds against only 3,664,000 in the same month of last year, while artificial silk imports stand at \$2,000,000 against \$1,750,000 in the same month of last year, and silk manufactures at \$4,848,000 in May, 1931, against \$4,348,000 in May, 1930.

Meanwhile, the Silk Association of America announces that the quantity of raw silk in the warehouses is the lowest since the compiling statistics upon this point, and that the apparent consumption during June is "the highest ever reported."

In nearly all of the other raw materials imported for manufacturing purposes, the quantities for the country in May are far below those of the same month of last year, while silk, as above indicated, shows an increase of 21 per cent. Raw cotton imports in May, 1931, were but a little over 5,000,000 pounds against nearly 6,000,000 in the same month of last year; fibers, 23,000 tons against 23,000 in May, 1930; hides, 24,000,000 pounds against 45,000,000; India rubber, 24,000,000 pounds against 24,000,000; and pig tin, 2,000,000 pounds against 3,000,000 in the same month of last year, while even wool, which is being imported freely in view of a prospective increase in tariff rates, shows but a slight increase as compared with that of silk, which is really the only important manufacturing material, which has thus far shown important increases.

The growth of the silk industry in the United States, adds the bank's statement, has been a surprise throughout its history. Bringing all of its raw material from the other side of the globe and manufacturing for many years exclusively for the people of the United States, the value of the out-turn of the silk factories grew from \$40,000,000 in 1880 to \$27,000,000 in 1890; \$187,000,000 in 1900; \$200,000,000 in 1910; \$225,000,000 in 1924, and \$250,000,000 in 1931, and the wages for transforming this foreign raw material into form for use by our own people, advanced from \$10,000,000 in 1880 to \$11,000,000 in 1890; \$21,000,000 in 1900; \$23,000,000 in 1910; \$47,000,000 in 1924, and probably not far from \$100,000,000 in 1931, though official figures on this point are not yet available.

Meanwhile, our silk factories have so perfected their systems of manufacture as to be able to compete with those of other countries, which formerly supplied the silk manufactures of the United States. Our exports of silk manufactures have grown in value from a little over \$2,000,000 in 1915 to \$8,500,000 in 1927; \$19,000,000 in 1928; \$24,000,000 in 1929, and \$27,000,000 in 1930, while the exports of articles manufactured from artificial silk, chiefly hosiery, have grown from a little over \$1,000,000 in 1917, the first year record, to over \$8,000,000 in 1930.

**Quoting the Magazine of Wall Street**

This issue of bonds constitutes a sound investment security. Only one-half of the authorized amount of bonds has been issued at this time. They are secured by mortgage on all the fixed assets of the company, including lands, buildings, machinery and equipment, and also its formulas, trade-marks, and good will, constituting the only funded debt of the company. Fixed assets covered by the mortgage, based on sound appraisal, are equivalent to more than double the outstanding amount of bonds, while total net assets, excluding good will and other intangibles, have a value equal to three times the bonds outstanding. Net working capital of the company as of March 31 was approximately \$4,000,000. Average net earnings over the past four years have been sufficient to cover interest on these bonds about four and three-quarters times. The bonds are safeguarded by a cumulative semi-annual sinking fund, commencing October 1, 1923, which it is estimated will retire the entire issue before the maturity date in 1941. The Van Camp business was established some 60 years ago and its products command a national market. The business constitutes an essential industry and its continued success seems assured. These bonds were offered to investors at 99 to yield about 8.10%. Within the next few years they should sell well above par."

### Water Company Bonds

No other business is so free from hazards, so exempt from disturbing problems, so entirely dependable as the distribution of water to stable communities.

The demand for water is as stable as the increase in population. There are no substitutes. Salesmen are unnecessary. Advertising is not required to increase demand. Invention cannot improve the product. Competition is scarcely possible and never practicable.

The cost of doing business is exceedingly uniform. Human labor is reduced to a minimum. The raw materials are costless. Depreciation on plant and equipment is slow. Obsolescence is slight. Even fluctuations in the cost of fuel for pumping and taxes are inconsiderable.

Neither fire nor flood nor war can do great harm. Extraordinary events did not cause suspension of the works of San Francisco or California. Only a cataclysm could.

In California, the superintending Railroad Commission further insures the utility. Assuming a fair valuation and satisfactory service, the company in the same proportion as the charges of a water company, smaller, and safely, too, than any other type of private corporation.

These reasons are good reasons. Water Company Bonds are good in which to invest your funds.

We are offering bonds of the second largest water company in the United States. Write, phone or call for information.

## RICH MAN VANISHES; MURDERED?

Auto of Missing Texas Oil Operator on Way Here is Found.

Foul play is feared as the cause of the strange disappearance of John J. Knight, wealthy oil man of Texas, a frequent visitor in Los Angeles, and who was en route to this city to make his home. When last seen at Buckeye Arms, Mr. Knight was headed for Los Angeles in his automobile. The latter was found, apparently intact, near Palo Verde, on the 18th inst., and later some of the personal effects of the missing man, including his Masonic membership card, were found partly buried, near the scene.

The plains on either side of the Los Angeles River are being searched for a distance of twenty miles in hopes of gaining additional clues, dispatches from Phoenix said last night. In the meantime, the Navy Hotel in Los Angeles has twice been asked by Sheriff Montgomery of Phoenix for information concerning Mr. Knight, who has been a guest at the hotel several times.

Mr. Knight is said by his friends in Los Angeles to have worn many large diamonds and to have a habit of carrying large sums of money. Heightening the probability of the foul play theory, two sets of automobile tracks have been found leading away from the spot where the abandoned Knight machine was located.

Mail has been arriving at the Navy for Mr. Knight during the last three weeks. L. L. Tott, room clerk, said last night. Before his automobile was found, several friends of Mr. Knight had expressed alarm at the failure of the oil man to reach Los Angeles.

V. Lipcomb, a brother-in-law of Mr. Knight, is now in Phoenix assisting in the investigation. He went there from Dallas, Tex., with a detective when he learned of the singular circumstances of his relative's disappearance.

PIONEER STOCKMAN IS CALLED BY DEATH.

A. W. Lawrence, known throughout the Middle West as a pioneer stock man and who for many years conducted a large horse and mule ranch at Long Beach in his seventy-fifth year, was a brother of M. A. Lawrence, publisher of Cleveland, O., and was a Grand Army veteran and an Elk and had many friends among the "old timers" here. Funeral arrangements are being made at the chapel of J. J. Matell, Long Beach.

## TRAGEDY TALE IS TOLD COURT.

Mrs. Lundberg Reveals Fight With Suicide Mania.

Eager to Solve Mystery of Beyond, She Says.

Declares Slaying of Worden Was Accidental.

Mrs. Edith Lundberg told in Judge Houser's court yesterday how Linus F. Worden, known as Lee Worden, met his death at her hands on the evening of last February 8. Her voice, low and cultivated, reached barely to the ears of the jury, seven of whom are women. The several scenes of worden's life sitting as spectators heard one word in a dozen, but their interest in the frail, pale, bronzed woman on the stand never faltered for a moment.

It was not a sordid story Mrs. Lundberg told. It was the story of a woman, who for years has suffered the miseries of headache; who a score of times determined to end it all and then outthought the desire; who often pressed a gun to her heart and lost courage to pull the trigger.

She told Mr. Worden, between himself and whom an engagement had been called off, that she would never marry. She admitted she was fond of him and that he called to see her five times a week. The Friday night before the fatal shot was fired, while Mr. Worden was sitting in her home talking to her father and mother, she went into a smaller room, picked up the revolver and said to herself: "This is the end."

But her fingers were nerveless. She returned to the sitting room and re-entered the little room and reloaded the effort to send a bullet through her heart.

Mr. Worden noticed her agitation, but she would not tell him what attracted the little room held for her. Finally, she pushed him out of the sitting room and locked the door. It was on this Friday night that Mrs. Lundberg placed the revolver in the pocket of a coat. It was this coat she put on, having taken thirty grains of aspirin she felt numb, and it was a revolver she carried in her pocket when she put on the coat after Mr. Worden had left her home.

The shooting of Mr. Worden was a pure accident, she said. She never had any intention of killing him. While they were sitting on the porch of her home that fatal evening, she finally made up her mind to kill herself. Mr. Worden told her she was nervous, and she had told her a few minutes before, while they were sitting in his automobile, that she was nervous, and she would not see me because I won't be here.

THINKING OF GUN.

"Some day I came over me, I stood there shaking my head. He kept talking. I don't know what he said. I kept thinking of the gun. I wondered whether the trigger would stick or the gun would go off. I tried to see if the trigger would pull hard. All kinds of emotions went through me. I remember him turning away from me. He laughed and said: 'You will be all right. I shoot my head and felt the gun. The first thing I knew there was a flash. I saw his face in front of me. The report frightened me.'"

She then shot herself and for seven weeks lingered between life and death in a hospital. On cross-examination, Mrs. Lundberg said she was brief. He asked if she had shot him. She said she was. The testimony will close tomorrow with rebuttal witnesses on the part of the District Attorney. Public Defender Aggeler will argue to the jury that Mr. Worden was accidentally shot. The theory of the prosecution is that the shooting was intentional and conviction of murder will be asked.

Ill health and the desire to see what is beyond this life prompted Mrs. Lundberg to buy a revolver which at first she did not know how to load. The cartridges were too large and she declared that the man who sold her the gun and cartridges admitted to her he had deceived her. She said she loaded the gun with proper-size cartridges, and then on a number of occasions fought off the desire to end her life.

GUN DISAPPEARS.

When her fits of depression were greatest, she said she would look herself in her room and read works on spiritualism. She hid the gun and it disappeared. Then she bought a second gun, this time at

## WOMAN KILLED; ACTOR JAILED.

Eddie Borden Held After Auto Hits Pedestrian.

Former Orpheum Star Asserts Accident Unavoidable.

Tries to Keep Up His Spirits Following Tragedy.

Eddie Borden, not long ago a headliner on the Orpheum circuit and whose comedy in many years on the vaudeville stage has made thousands laugh, last night buried his own spirits by keeping up a triple of laughter in tank No. 4 of the County Jail.

But, he said, it was not because he wanted to laugh, for yesterday afternoon his automobile ran over and killed Mrs. Margaret M. Cassidy, aged 28 years, a motion-picture actress, on Washington Boulevard near the Pacific Electric tracks, Culver City.

Mrs. Cassidy, wife of Frank Cassidy, clerk, living at 915 West Fifth street, was walking along the street with "Billy" Impolito, also a motion-picture actress, in the same direction in which Mr. Borden's automobile was traveling. Mr. Borden's car was said to have been going at about sixteen miles an hour when he struck the women.

Mr. Borden, who had "Mr. James Dwyer" as his stage name, and stars as a passenger, declared the accident to be unavoidable.

TELLS OF TRAGEDY.

"I had noticed the twenty-mile limit sign as I approached the studio to which I was going," he said. "I slowed down. I noticed two women in front of me and honked the horn. Then I slowed down more, as they did not seem to move out of the street. I was going about sixteen miles an hour when I realized suddenly that I could not avoid hitting one or both of the women. I did my best to avoid them, but struck one. It was unfortunate."

Mr. Borden stopped and put Mrs. Cassidy in his car and took her to the County Jail. A coroner's inquest was held this afternoon by Coroner Nason.

Telephone Figures Prove Population is Increasing With Uninterrupted Speed.

Los Angeles' tremendous growth of 1920 is continuing without let-up. It is shown by figures made public yesterday by Commercial Superintendent Powley of the Southern California Telephone Company, who announced that in the first six months of the present year 17,000 new orders for telephones had been received.

To meet the needs of this demand for telephones, he stated that the company has appropriated an expenditure of \$1,000,000 for equipment, \$5,000,000, and has already received 100,000,000 conductor feet of cable, which is more than was received on the entire Pacific Coast last year.

In the past six months the local company has made a net gain of 10,000 telephones, which shows that the increasing rapid arrival of equipment the local company is speedily catching up after the shortage of materials due to the war.

Supt. Powley said he hoped that by November 1 and certainly not later than January 1, the entire waiting list of 100 orders will be wiped out and normal conditions, making possible the immediate installation of telephones after orders had been received, will prevail.

Like one of the heroes of the late O. Henry, Benjamin L. Cummins, seems to have had the wrong dream. Instead of being a Postoffice Inspector Cookson last week, he will have to face a charge of embezzlement, according to charges received yesterday from the Federal officers at Macon, Ga. It is said that he is \$250 short in his accounts, and in addition a book of blank postal money orders is missing, according to the same charges. Mr. Cummins is still at a local hospital awaiting the arrival of an official complaint from the South.

The young man, who is an ex-apprentice, and was operated on just before he left Macon, about March 1, last.

Man Found in Room Steals Checks and Battles Way to Freedom.

Returning to his room last evening, Lars L. Oye, 31 years old, of 233 South Main street, found a man standing in the center of the floor. When asked what he wanted, the stranger told him he was the proprietor of the house. Mr. Oye argued with him and then the man said he was the owner's son.

Mr. Oye called for help. Several roomers responded and helped throw the man to the floor. They then summoned the police, but the intruder fled himself and ran to the street. Mr. Oye received a severe cut on the head during the struggle. The stranger stole three pay checks totaling \$25.

FOR BEER AND WINES.

Congressman Kahn to Draft Petition to Make Beverages Legal.

J. Morgan Marmaduke, attorney of the Sanity League of America, recently formed here, announced yesterday that Representative Kahn of California had telegraphed from San Francisco, asking for a petition to draft a petition calling on Congress to legalize the sale of beer and light wines. The league plans to circulate the petition in all parts of the United States. It is Marmaduke's belief that Congress could take such action without altering the Eighteenth Amendment.

## ASKS HEARING FOR PARENTS.

Mothers' Congress Leader Has Education Board Plan.

To Counterbalance Scheme of Teachers' Councils.

Letter Urges Committee for Real Representation.

Designed to prevent autocratic control of the Los Angeles public schools by the city's teachers, a few of whom recently went on record as demanding "teacher-councils" to pass on acts of the Board of Education and the superintendent of schools, a plan for the organization of "parents' councils" or committees has been submitted to the Board of Education by Mrs. Charles F. Gray, first vice-president of the State Congress of Mothers and Parent-Teacher associations.

Mrs. Gray yesterday emphatically asserted that she is satisfied with the present organization of the Board of Education, and the administrative forces under its supervision, but that she will insist that the parents of the city's school children be given equal "council" rights with the teachers if the teachers' demands are granted by the school authorities.

"I am satisfied with the organization of the present Board of Education," she said, "and I would rather have the established organization remain as it is, but if the teachers, many of whom already are very autocratic, succeed in getting them 'teacher-councils' which seem still more autocratic, I think the parents and the taxpayers should have direct representation."

LONG EXPERIENCE.

Mrs. Gray, who formerly headed the Los Angeles Federation of Parent-Teacher Associations, is one of the best known child welfare workers in California. She has been identified with virtually every school-improvement movement in Los Angeles and elsewhere in the State for the last four or five years.

Explaining that her "parent-council" letter to the Board of Education was a personal and not an official communication, Mrs. Gray said that she wrote it after consultation with many Los Angeles mothers, all of whom agreed that some such action was necessary.

In these times of rampant opinion of the teacher-council plan, Mrs. Gray denied any

# ARTILLERY TO TRAIN HERE.

Six hundred California Coast Ar-

dergo two weeks of intensive train-  
ing at Fort MacArthur, Los Angeles  
Harbor, during August, Lieut.-Col.  
William T. Tibball, adjutant of the  
harbor defenses, announced yester-  
day. The artillerymen will come  
here from San Francisco and San  
Diego.

The heavy gunning engaged in  
several months ago by the battle-  
ships of the Pacific Fleet of the  
Southern California coast will be  
overshadowed by the target prac-  
tices to be held at Fort MacArthur  
by the National Guardsmen next  
month. Hundreds of shots will be  
fired from the fourteen-inch rifles  
and from the twelve-inch mortar  
batteries. The two weeks of train-  
ing will be supervised personally by  
Adj.-Gen. Morris of the National  
Guard, Major W. R. Weiskner of  
the Regular Army.

The soldiers are to arrive at the  
fortifications on August 14 and will

# Self-Defense to Be Plea in "Love Killing."

Self defense, coupled with a pe-  
culiar phase of the so-called "un-  
written law," will be the defense of  
Emmett O. Wilkes, who was ar-  
raigned yesterday before Justice  
Brown on a charge of assault with  
a deadly weapon upon Claire Sheeley,  
president of the California Tile and  
Mosaic Company.

It was asserted by Wilkes's attor-  
ney, Duke R. Brown, and Perry F.  
Backus that after the defendant and  
his wife, Mrs. Stella Wilkes, had  
separated and become reconciled,  
the husband went with his wife to her  
temporary home to get her personal  
belongings, and there Wilkes, who  
was injured in France, was attacked  
by the other man, and shot in self-  
defense.

The court fixed bail at \$1000, and  
the defendant furnished that  
amount and was released. His hear-  
ing was set for August 2.

Company, \$75 in police court yester-  
day. Judge Chasebro assessed the  
fine after Nolan pleaded guilty to a  
charge of giving short weight to  
Mrs. J. A. LeBour, 1410 Constance  
street.

Nolan was arrested by C. J. Buck  
and R. J. Gray of the county de-

sette and Devonshire cloth. In sizes 2 to 6  
are many sample dresses, including combi-  
nations of organdy and gingham, and some  
finished in handwork.

—Then for older girls up to 14 there is an especially charming  
frock with full skirt and large tuck trimmings. Best of all, most  
of these dainty dresses have large sashes, which are so much in  
vogue right now. There is a large assortment of checks and  
plaids and plenty of pinks, blues, greens, tans and a few yellows.  
They really are wonderful and you, too, will think so.

The Floor of Youth—the Fourth—Jacoby's

# Women's Strap Slippers in a Sale at \$4.95

—They are of white kid or buck; of gray kid or suede or the black satin  
slippers that are just right to wear with street or evening frocks. Clever  
high or low heel styles priced very greatly under the real worth at \$4.95.

Women's Slippers to Go at \$5.95

—You'd know them for excellent values at a price dollars and dollars  
higher!

—In the lot are white buck sports oxfords and strap slippers with black  
or brown trimming. In fact, you may choose any pair of sports shoes in  
our stock at this price.

—Included, too, are tan calf one or two strap slippers with French or  
baby Louis heels.

Main Floor, North Building—Jacoby's

# A Wonder Sale of Muslin Nightgowns, Envelopes and Petticoats. 98c

—The writer can't think up words of great enough force to fittingly de-  
scribe this offering of Undermunnings.

—There are flesh-colored gowns—with either satin or lace yokes—and  
think of it—at 98c.

—Muslin petticoats finished with attractive embroidery flouncings.

—Envelope chemises with just such lace and embroidery trimmings as you  
would expect on garments at much higher prices.

Second Floor, North Building—Jacoby's

# Frocks at Less Than the \$15.98 Maker's Price

—Just a small lot came in the other day  
from New York, and every woman who  
secures one at \$15.98 may count herself for-  
tunate.

—The taffeta is a remarkably good quality,  
and they have overskirts of dainty embroi-  
dered organdy.

—If your size is here, you can make a big  
saving!

# 16 Pretty Styles in Printed Voile Dresses at \$9.98

—A wonderfully attractive assortment to select  
from at a very special price. The sizes range  
from 16 to 46.

White Tub 98c  
Skirts..... 98c

—They are made of  
white cotton gabar-  
dine and the price is  
lowered because they  
are slightly soiled.

—Others at \$1.98 and  
\$2.98.

Jacoby's Underprice  
Basement—South Building

# Shello Rim Spec- tacles and Eye Glasses

Either of them with  
the lenses that your  
eyes require at a  
price that is sensa-  
tionally low.

\$5.98

—The Book of Ethics is filled  
with don'ts for the optician  
and the optometrist, but "for  
the life of us" we can't see  
why the optician department  
can't have a sale, when it is  
overstocked, just as well as  
the garment or glove de-  
partment.

—Note, please, that Dr.  
Mark has just 100 of these  
shello rim spectacles and eye  
glasses! It would be wise  
to make an early appoint-  
ment with Dr. Mark by  
phone. Make this day  
for examinations to be made  
on Friday you will have the  
advantage of this remarka-  
bly low price!

Main Floor, North

# 36-Inch Stamped Luncheon Cloths—39c

—They are 36-in. square cloths  
of sturdy Indian Head fea-  
tured much below the price  
they'd be regularly.

—We bought the material and  
had the cloths made and  
stamped especially for us in  
designs we know to be popular  
and easily worked.

# Stamped Scarfs—29c

—Dresser Scarfs of linen fin-

# 36-Inch Organdy and Net Flouncings on Sale at \$1.59

—The regular markings were  
so much higher that these  
pretty summery flouncings  
should all be sold before the  
deeper close.

—They are in white, pink,  
ecchi, light blue, Nile,  
maize and rose.

# Beautiful Silk Lamp Shades at a Wonder Price..... \$16.98

—Women who have been making their own  
lamp shades will tell you that the materials  
alone cost much more than we are asking for  
these complete shades.

—There are 12 different styles—some in 24-in.  
and some in 26-in. sizes! They are made of  
both plain and fancy silks in any number of  
colorings, with silk or chenille trimmings.

Basement, South Building—Jacoby's

# These 2900 Yards of Novelty Wash Goods Will Fairly Fly Out at 29c

—They're all snowy white weaves in a great va-  
riety of novelty weaves.

—Just the very sort of cottons women want for  
warm weather frocks and blouses.

—We are at a loss to understand why the manu-  
facturer sold them to us for such a ridiculously  
low price—but we're content with the fact that  
they're here, for we know they'll be a powerful  
magnet to attract crowds bright and early.

Second Floor, South Building—Jacoby's

# Children's Nainsook Combination Union Suits, 'Way Less at 49c

—Maybe you've seen these comely little white nainsook  
garments at their regular marking and so realize just  
how economical it is to buy them for only 49c.

—They are well made, strongly taped and plenty of but-  
tons. Low neck, sleeveless, knee length style and may  
be worn by boys or girls. Sizes from 1 to 12 years.

Main Floor, South Building—Jacoby's

# Men's Silk Shirts Reduced to \$3.49

—All these shirts are made of heavy silk broad-  
cloth and were marked over and over so much  
more in our regular stocks.

—There's an excellent range of patterns and  
colorings, but note, please, that the size range  
includes 14, 14 1/2 and 15 only.

—No C. O. D.'s and no exchanges.

# Big Double Bed Crocheted Bedspreads..... \$139

—Hotel and apartment-house keepers as well as home  
owners are going to be mightily interested in this sale of  
bedspreads at \$139.

—They're bigger spreads and heavier spreads than you  
had any idea you could buy for so little.

# Pepperell Sheets Specially Priced..... 98c

# Glorious 40-Inch Silk and Fiber Sport Skirtings at \$1.89

—Ballette Satin—Sun Sheen—Brocade and novelty  
stripes—you know how much more than \$1.89 they sell  
for in the regular way.

—Early buyers will find these sporty skirtings in white  
and ten different shades.

Second Floor, South Building—Jacoby's

# 1450 Prs. Women's Low Shoes in the Basement \$1.65

—Well over 900 pairs of white footwear,  
canvas or poplin Dixie Ties, Pumps, Oxfords  
and Slippers.

—Then there are black and brown oxfords  
and pumps, hundreds of pairs in the same  
size range.

—So much for va-  
riety! And the  
values are even  
more wonderful.  
The price hardly be-  
gins to express the  
real worth of this  
great lot of midsum-  
mer footwear.

### Seek to Draw Other Cities Into Their Fight.

Mr. Ostendorf stated that the struggle against the eleven studies attacked by the strike is not merely here. Motion-picture exhibitors throughout the country are attracted by the local committee to refrain from showing films that are produced by the studios here. According to Mr. Ostendorf, the producers have not cut wages or lengthened the hours of the workers. "We intend to pay out," he said. "We will not consider the ten-hour

***Trixie Friganza, Sued, Says Mere Man is Responsible.***

**TRISTE FRIGANZA**, of 549 and 551 N. Main, had an opportunity to study a court case as she sat in Judge Weir's court yesterday waiting to be called in an action in which she was named defendant. Friganza was one of the first to appear in the Los Angeles county court and she frankly admitted she did not know the case. Instead of a show of applause, a judgment in her favor was handed down.

She was the plaintiff in the case brought by a local store through William Koebler, assignee. It was a suit for the return of a cashmere suit costume for the defendant used in the "Poor Man's" company. The suit was bought by Thomas O'Den, owner of the company, who paid \$100 for it. Friganza was the defendant. The question at issue was whether the suit was extended to Triste Friganza or not. It was extended to her, and she was awarded the suit. The owner of the company, who was the plaintiff, Elmer Harris, who wrote the play in which Triste Friganza starred, had been in the case. He was not in court, but the case was not concluded.

Philip Forve, Jr., secretary of the Forve-Petibone Company, was married last night. Miss Frances Van Tilburg of Minneapolis, at the family residence, 437 South Westlake avenue. Rev. Francis J. Conaty, pastor of the Church of Our Lady, Guadalupe, performed the ceremony. Only members of the family were present.

Miss Van Tilburg, daughter of Mr. and Mrs. Van Tilburg, of Minneapolis, is 34 years of age. Mr. Forve is the son of Philip Forve, president and one of the founders of the Forve-Petibone Company, of the Forve family of Appleton, Wis. Immediately following the ceremony the young people departed for Honolulu, where they will re-

### Ends Plea by Refusal of Stay of Execution.

An effort to secure a writ of error involving the judgment and sentence of Peter B. Howard, Drawlaway banker and rancher, who pleaded guilty to a violation of the Mann White Slave Act, by bringing his knees here for an immoral purpose, exploded with a loud noise in U. S. District Judge's court here yesterday.

After Theodore Stansland, attorney for Howley, had handed the judge the petition for the writ, the judge asked him, "Is it said, 'Well, what about it?'"

The attorney said that if the indictment which charged Howley with pleaded guilty was fatally defective that no judgment and sentence unnecessary would be entered. He then pleaded guilty. Mr. Stansland was about to start to make a speech, when the court interrupted:

Next Sunday's retrospective section of The Times will contain two full pages of photographs showing the residential, commercial, industrial and modern advantages of the great south coast beaches including Newport, Balboa, Seal Beach and Huntington Beach.

## Worried About Baby?

### Get a Positively Pure Milk!

You can avoid all the worry and anxiety that usually accompanies the feeding of Baby if you will heed the recommendation of the County Medical Association.

Arden Certified Milk has been produced under their supervision for 15 years, and it has their unqualified endorsement as the best milk for your baby. Holstein cow's milk has been proven to be nearest in composition to human breast milk than any other brand of cow's milk. The percentage of fat in Holstein milk compares almost identically with that of breast milk, not only that, but the fat globules are very small, as in mother's milk, which renders it much more easily digested than milk from other cows.

High butter-fat content in milk is the cause of most intestinal disorders in infants. The above statements have been conclusively and universally proven by the Medical profession. Hence, in keeping with its faith to produce a strictly Baby milk, Arden Dairy is cutting all Germany and Jersey cows from their herd, for the welfare and protection of your baby.

Growing children, invalids, convalescents and the whole family thrive on it. Let us aid you in raising Baby on the good to growth and health.

# Items of Interest About Doings of Women.

## SOCIETY.

BY VIRGINIA WOODS.

Mrs. Edwin T. Earl to Wed.

Of interest to her wide circle of friends is the announcement of the approaching marriage of Mrs. Edwin T. Earl, widow of the capitalist and publisher, to Col. William Erick Fowler, president and principal owner of the William E. Fowler Company, private bankers of Washington, D. C., well known in social circles throughout the United States.

Coadjutor Bishop Stevens of the Episcopal Diocese of Los Angeles will perform the marriage ceremony in St. John's Episcopal Church, Wednesday morning, a motor trip to several weeks through the north will follow. Later the newlyweds will return to Los Angeles, where their friends are planning to entertain extensively for them.

In the fall they will go to Washington, where Mrs. Earl has a large group of friends in the smart set. There in the capital city, Mrs. Earl's children, Emily, Edna, Jane and Chaffee, will attend private schools. Next summer they plan to return here for the wedding.

Mrs. Earl has long been one of the leaders of the fashionable set in Los Angeles, and also is well known for her charities. Col. Fowler was in the Ordnance Department during the war, serving as port ordnance officer in Boston for a time, then as a member of the Board of Claims.

Guy Earl, brother of the late E. T. Earl, and wife will come from San Francisco for the wedding.

## Efficient Housekeeping

BY LAURA A. KIRKMAN.

ANSWERED LETTERS.

Church Worker: Can you suggest some way in which our church can make money out of doors in August? We are all so tired of ice cream socials.

Answer: Why not have a cafeteria picnic? Have the various ladies of the church provide different picnic foods—one salad, one sandwich, one wicker, one salad, etc., and all go to the woods to hold this jolly picnic. Hang a large white paper board placard on a tree with the foods and their prices listed upon it. Everybody will take a paper plate and help himself, paying for each food as he takes it. I would not have the prices too high if you were young. Instance: I cents is enough for a cup of coffee, or for a couple of sandwiches, and 10 cents might be charged for a picnic, stuffed eggs or grapejuice. Your minister should announce this affair from the pulpit the day before it is to take place, and urge all of the congregation to attend for the picnic the day before.

New Taxi: Play exactly like old taxi, except that no person can be tagged who is holding his left ear with his right hand and his right arm with his left hand. This makes great fun.

Mrs. Squirrel: All stand in a circle with joined hands. One is chosen to be the squirrel, and he is chosen to be the squirrel, and he is chosen to be the squirrel. (If your local grocer doesn't carry these little canned fish, I can give you the address of a firm from which you may buy them by mail.)

## CLUB FOR SERVICE MEN PROVES WORTH.

MEETING PLACE FOR ARMY AND NAVY ESTABLISHED AFTER "TIMES" VICE EXPOSE.

The soldiers and sailors' club conducted by the American Women's Overseas League at 121 South Main street, in its three weeks' existence, has proven its usefulness. The club was formed as a result of the Times' exposure of vice conditions in Los Angeles, especially affecting the welfare of sailors.

"We found that there was not a single meeting place of the right sort, in Los Angeles where soldiers, sailors and marines could go while they were stopping in the city," Mrs. L. J. Salby, president of the league, said yesterday. "During the war Los Angeles had a club for enlisted men, but it was dropped when the war ended."

The clubrooms have been furnished, with the assistance of Mr. and Mrs. J. M. Danziger, but still lack many things, among them a billiard table. There is a piano, phonograph and magazines. It is expected that later on dances will be held at regular intervals.

Two secretaries are in attendance from 2 p.m. to 10:30 p.m., including Sunday. The ladies have been largely considering the lack of advertising the club has had among the ships of the fleet.

The secretaries in attendance at the clubrooms are Miss Helen Weller, who was with the Y. W. C. A. overseas (Bureau of Education), and Miss Margaret C. Paulson, who was married Saturday in the presence of a few relatives. Rev. J. M. Danziger, who is the ceremony, Mr. and Mrs. Burgess will spend their honeymoon at Hermosa Beach.

## NEW TAX PLANNED.

Council to Ask Business Men to Finance Occupational Levy Law.

Protests of the drugstore, hardware, meat and other dealers against the asserted inequalities in the new business or occupational license tax, which went into effect on the 1st inst., resulted yesterday in an agreement being reached among the members of the City Council to lay the entire problem before the business men of the city, including the Chamber of Commerce, for solution. The Finance Committee of the Council will request the business men to work out an ordinance which will be satisfactory to all and at the same time will produce \$350,000 for the city during the present fiscal year.

The occupational tax was reduced beginning on the 1st inst. 50-50 per cent, as a result of the objections of the business men of the city, who complained that the tax constituted an unjust burden on them. Businessmen omitted from the reduction filed complaints at the City Hall and as a result the Councilmen have asked the business men to prepare a new ordinance.

PARADISE, July 25.—Prominent  
members of the Christian Science  
denomination in Southern California  
were among those in attendance  
at funeral services at 4 o'clock this  
afternoon for Judge George R.  
Hanna, a nationally known figure in  
the Christian Science church, who  
passed away Saturday.

The services were held at the  
Hanna residence, 303 Oakwood  
avenue, where Judge and Mrs. Hanna  
have resided since they came to  
Pasadena in 1911. Readings were  
given from the Bible and the works  
of Mary Baker Eddy, founder of  
Christian Science, whose pupil and  
close friend Judge Hanna became.

He succeeded her as first reader of  
the Mother Church in Boston and  
president of the Massachusetts  
Metaphysical College.

The body was buried in Mountain  
View Cemetery here.

City Manager C. W. Koller has  
succeeded in his efforts to get the  
Pacific Electric Railway to revert to  
the old plan of leasing transfers at  
the time fares are paid. Recently  
transfers have been issued when the  
passengers left the cars. This plan  
did not find approval with the local  
patrons of the railway. The street-  
car patrons appealed to the City  
Manager to assist them in getting it  
repealed.

AUTO DEALER DIES.  
R. T. Goodell, Pasadena automobile  
dealer and clubman, and an  
alumnus of Amherst and Harvard  
universities, died today at his home,  
1550 Ridgeway street, Oak Knoll,  
following a severe illness from  
pneumonia. He was 45 years old,  
was born in Michigan and practiced  
law a number of years in Houghton,  
Mich. A brother, Stewart Goodell,  
still resides there. Other surviving  
relatives are his parents, Mr. and  
Mrs. R. R. Goodell of Pasadena,  
and two sisters, Mrs. Irving J.  
Sturges and Mrs. S. F. Seager, also  
of this city. The funeral will be  
held Wednesday morning at 10:30  
at the residence. Mr. Goodell was  
the senior member of the Pasadena  
firm of Goodell & Mead.

EAST OPTIMISTIC.

just returned from Boston. He said  
the Atlantic slope is showing a  
greater revival of business than  
the Middle West.

### Three Arrests Follow Rumpus at Camp Baldy

(EXCLUSIVE DISPATCH.)  
ONTARIO, July 25.—A large  
touring car in which A. J. Jones,  
Blaine Otis and Ralph Kersh of  
Los Angeles drove to Camp Baldy,  
a resort in San Antonio Canyon, to  
the north of this city, was held  
tonight by Judge George R.  
Crane of Upland in lieu of \$15 bail,  
following the arrest of the driver  
of the trio on charges of disturbing  
the peace. The three men are re-  
ported to have driven to the Camp  
Baldy hotel at two in the morning  
and are alleged to have broken into  
a cabin and to have caused a  
general rumpus.

They were arrested by Deputy  
Sheriffs Kirk Vernon and Herbert  
McCulloch after C. T. McCulloch,  
proprietor of the resort, had made  
a complaint against them. They are  
said to have been intoxicated.

### Yacht Race to Be Repeated; Ships in Calm.

(EXCLUSIVE DISPATCH.)  
BALBOA, July 25.—Another date  
will be set for the Balboa to Cata-  
luna yacht race, for the Commodore  
Claude G. Pinckney, who was an-  
nounced today by officials of the  
Newport Harbor Yacht Club. Very  
light breezes and calm prevented  
completion of the first race, which  
started Saturday and was to have  
closed yesterday or today.

After lying for several hours with  
no air stirring, the crews of the  
Unas and the Viking IV broke the  
spell to their engines and sailed  
to Balboa to await more propitious  
conditions. The Unas  
reached Catalina but was not re-  
turned, and the Viking IV, with Ad-  
miral Albert Soland in charge, was  
caught in a calm and did not reach  
the half-way point.

The accidental breaking of a gal-  
lon demijohn, which was being  
collected with that of Ray F. T.  
Porter of Santa Ana, resulted in the  
arrest of W. W. Callaway, of the  
naval aviation corps of San Diego,  
who today paid a \$15 fine to Justice  
Cot. The demijohn came from  
Hollywood and was being transported  
a friend in taking it to San Diego.

### PORTERVILLE VETERAN INDORSED BY POSTS.

(EXCLUSIVE DISPATCH.)  
PORTERVILLE, July 25.—John  
R. Quinn of Delano, was in-  
dorsed for the post of commander of  
the California department of the Ameri-  
can Legion by delegates of Tulare,  
Kings and Fresno counties at a  
liminary conference of the tri-county  
organization in Tulare yesterday.

Mr. Quinn was a captain of Bat-  
tery F, Third Hundred and Forty-  
eighth Regiment of Artillery, Nine-  
teenth Division, during the World  
War, served ten months overseas  
and was in all of the main engage-  
ments with the famous division. He  
is known throughout the State for  
his work in the Legion.

Following his discharge, he or-  
ganized the Delano post, of which  
he was the first commander. He  
also served on the resolutions com-  
mittee at the convention in San  
Diego, last year. Mr. Quinn is a  
graduate of the Porterville High and  
the University of California. He  
elected he will be the executive  
committee from Central California. He  
has been indorsed by a number of  
northern and southern Legion or-  
ganizations.

George D. Cressy of Porterville  
was appointed Mr. Quinn's cam-  
paign manager, and he was assisted  
by George Roberts of Bakersfield,  
and Dr. A. Bowers of Hanford.

### REPORT SNOW WITHIN TWENTY MILES ONTARIO

(LOCAL CORRESPONDENCE.)  
ONTARIO, July 25.—Real, honest-to-goodness snow within twenty  
miles of Ontario! Hard as it may be  
to believe with the thermometer  
here hovering around the 91-degree  
mark for the past week, the truth  
of the assertion is nevertheless  
vouched for by persons returning to-  
day from a trip to the top of "Old  
Baldy," or Mt. San Antonio, to the  
north of this city.

Trips to the summit from Camp  
Baldy are proving immensely popu-  
lar this year, and are made on  
horse or muleback. Those making  
the trip to the top today said up-  
on their return that, despite the  
torrid temperatures of the valley,  
there is still a goodly patch of  
snow on the north side of Baldy's  
summit.

PORTERVILLE, July 25.—While  
Louis Flory and his family were  
away last night, thieves  
entered their home and helped them-  
selves to every article of clothing in  
the house, three unknown thieves  
articles of jewelry, and made their

## Underwear

Cool Underwear for Summer Days—One cannot have too much of it, and thoughts of economy here enter in. That is why this July offering of Bloomers is so much in order, for surely one cannot deny oneself the pleasure of an unlimited supply at prices such as these.

### Pink Batiste Step-In Bloomers at 75c

—Ever such dainty garments with lace trimmed lower edges and elastic at waist lines—at 75c. Lengths 25 to 27 inches. You will find them cool, comfortable and very low priced, indeed, at 75c.

Pink Windsor Crepe Bloomers, 85c—These are either the step-in or tight-knee style and, of course, every woman knows what Windsor Crepe is in quality. Hemstitching finishes the step-in. Elastic waist lines, and lengths 25, 27 and 29 inches.

Pink Batiste Bloomers, \$1.00—Tailored or lace trimmed; step-in or tight knees; the lower edges of the tight knees end in Van Dyke ruffles, or else are finished cleverly with blue satin ribbon insets. Elastic waist lines and all lengths—at \$1.00.

Pink Sateen Bloomers, \$1.25—Their lower edges are quite simply finished with hemstitching, and the sateen is of very satisfactory texture; tight knees, elastic at waist lines, and reinforced where the wear comes; lengths 25 to 27 inches—and very moderate in price at \$1.25.

Bloomers of Pink Brocade, \$1.50—Their tight knees are finished with a ruffle; the brocade effect is rich-looking, and they are well made. They are finished with elastic at waist lines, and lengths are 25 to 27 inches.

Women's Silk and Muslin Underwear Section.—At Bullock's—Fourth Floor—

### Girls' Undermuslins

These have a place of their own, where the nicest garments to be found for girls from 6 to 16 are to be had at moderate prices.

—Girls' Undermuslins—Fifth Floor.

### 35 Dozen Women's Athletic Union Suits, 85c

—They are certainly good, coming just now; when one needs something cool; suits that regularly sell for more, but-  
tonless, bodice style with a neat lace finish at the top. Flesh color, and the material is batiste. Sizes from 36 to 44—at 85c—Fourth Floor.

### Knit Underwear

—For children; a Section devoted to Knit Underwear for children, bought by Bullock's with special consideration for the comfort of growing bodies.

—Children's Knit Underwear—Fifth Floor.

### Crepe and Georgette Blouses Valuable at \$4.95 and \$6.95

—600 of these charming Summer Blouses went on Sale in Bullock's Blouse Section yesterday morning. The eager manner in which the Women of the Southland have participated substantiates the Bullock belief that it is seldom can one get Blouses of the quality of these at such small markings!

—The good news is that today will offer another opportunity for Women to share in this Bullock offering!

—At both \$4.95 and \$6.95—the size ranges are complete. At both prices the Blouses are in the Overblouse style with many individual trimmings and adornments. Laces, tucks, ruffles, braid, plaits, real fillet—all lend their attractiveness to some of the Blouses.

—White, flesh tint, bisque and gray are the colors included in the \$4.95 group—while many Suit Shades are added to the list—in the group of Blouses at \$6.95. Bullock's Third Floor.

### Hoover Suction Sweepers

Beat as they sweep—as they clean

—Bullock's considers them of wonderful efficiency—and it is with genuine friendliness that Bullock's recommends The Hoover Suction Sweeper to the Housewives of Southern California!

—They're simply operated—inexpensive to use—and are thorough to a remarkable degree. If you are unfamiliar with The Hoover—Bullock's would be glad indeed to demonstrate its use to you—on Bullock's Sixth Floor.

### Permanent Waving at 75c Wave

—done by the French Patent Process, simplified and improved, so that it can be accomplished with absolute comfort and safety in less time. —The result so nearly approximates the natural curl that the hair, when brushed, falls into real waves which are lasting. —Bullock's—Second Floor.

### Aerolux Porch Shades

Admit the cool breezes and light—but they keep out the uncomfortable heat rays of the Sun! With Aerolux Ventilated Porch Shades—one can transform a "broiling" Porch into a cool, shaded room! —They are to be had in two grades and in four color effects—plain brown, plain green, green-and-white—and brown-and-white. Widths range from 3.3 to 12 feet. The cost is far less than one would expect for the service they render. See them demonstrated on Bullock's Sixth Floor.

## That Great Bullock Wheel Goods Sale Continues Today on the Fifth Floor

## Why "living trusts" appeal to business men

"No matter what happens to my fortune, health, or business ventures that little 'nest-egg' up at the Trust Company will keep us all above water," said a prominent business man of this city recently.

The thoughtful business man is today setting aside a portion of his estate in the form of a living trust for the benefit of himself and his dependents in the event of misfortunes such as ill health, business disaster, etc. You may also build up such a trust gradually out of your monthly profits that will insure shelter for the "storm should come."

Our Trust Officers will be glad to have an opportunity to answer your questions. Write or call for booklet, "Your Will."

ABSENT-MINDED,  
TAKES MAIL BAG.

Shirt Salesman Chased by  
Hotel Detective; Both  
Acquire Groceries.

Harvey Stiles, who sells  
shirts, left his room in the  
Alexandria yesterday carrying  
a leather bag of samples. A  
few minutes later his taxi cab  
arrived at the Ambassador,  
where, he had been advised,  
a guest was eager to buy a  
shirt or two.

But before he entered the  
hotel another taxi cab drove  
up and out stepped, leaped  
and tumbled the Alexandria  
house detective and two Alex-  
andria bell boys. The former  
grabbed the bag from Mr.  
Stiles.

"This is the hotel mail  
bag," explained the detective,  
and Mr. Stiles thereupon re-  
called that he had stopped at  
the desk for mail on the way  
out and had set down his  
sample bag.

Mr. Stiles hadn't known  
that he picked up the mail  
bag, and the house detective  
hadn't known that the mail  
bag was empty, which put  
both of them in a very bad  
humor for the rest of the day.

## AMERICA'S FINEST MILK

Results of the recent 4 Months' Milk Contest just announced in the daily papers, confirm our contention that we are producing the finest milk in the United States. For the past year our rating has been over 99%.

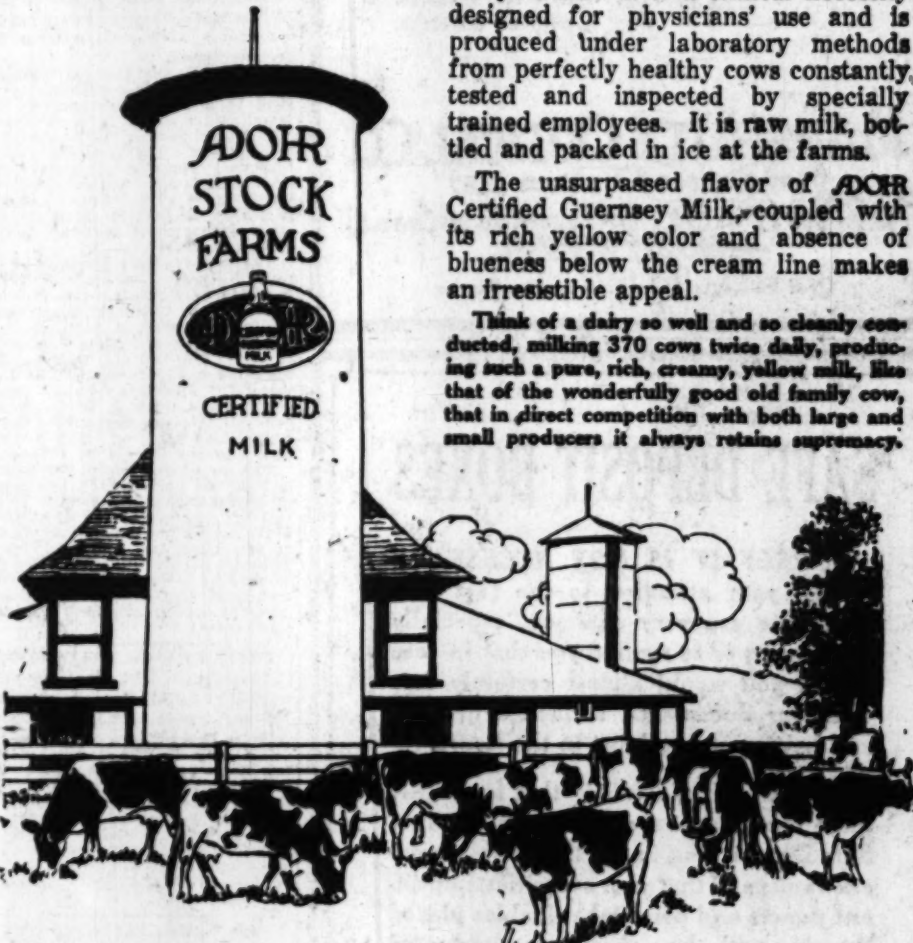

This is the highest rating ever given in the country for a similar period and is a true measure of the quality of Adohr Certified Guernsey Milk produced daily.

Besides the Health Department's check, this milk is under the daily inspection of a Milk Committee composed of 15 prominent physicians chosen from the 1100 members of the Los Angeles County Medical Association, who certify our product.

Certified Milk is more than a farm product. It is a clinical necessity designed for physicians' use and is produced under laboratory methods from perfectly healthy cows constantly tested and inspected by specially trained employees. It is raw milk, bottled and packed in ice at the farms.

The unsurpassed flavor of Adohr Certified Guernsey Milk, coupled with its rich yellow color and absence of blueness below the cream line makes an irresistible appeal.

Think of a dairy so well and so cleanly conducted, milking 370 cows twice daily, producing such a pure, rich, creamy, yellow milk, like that of the wonderfully good old family cow, that in direct competition with both large and small producers it always retains supremacy.

## BOTH WINNERS IN LONG SUIT.

Important Points Decided in Buttonlath Action.

Plaintiffs' Claim to Wall Board Process Upheld.

Infringement Charge Beaten by Defendant Firm.

Local business estimated at more than \$4,000,000 annually was affected yesterday by a decision of U. S. District Judge Trippet in the long-contested patent suit of John Schumacher and others against the Buttonlath Manufacturing Company of this city, involving the validity and asserted infringement of five patents. The decision was in part for the plaintiffs and in part for the defendants, both sides winning important points.

In general, the decision sustained the position of the plaintiffs in regard to a patent process for the manufacture of wall board and in regard to a cutting machine used in the process. The Buttonlath firm, however, won its contention that no infringement obtains in the manufacture of Buttonlath and also in regard to several machines and other apparatus in the manufacture of wall board.

The case required the time of the court for several weeks and the arguments were possibly the most extended and technical ever heard by Judge Trippet in a patent case. His decision was contained in twenty-two typewritten pages. The plaintiffs were represented by Raymond I. Blakeslee, chief patent counsel, and Louis J. Euler, general counsel, while the defendants had as counsel, the firm of Mott & Cross and Attorney George B. Wilson.

The use of wall board and Buttonlath in the construction and repair of houses has grown rapidly in the last few years and the business of both parties to the suit comprises an important Los Angeles industry. The cost of the litigation amounted to several thousand dollars for transcript, depositions from many different States, attorneys' fees and other costs.

**CALLS BRIDGE DANGEROUS.**  
Councilman Wheeler yesterday warned the City Council that the Downey avenue bridge over the Los Angeles River is in a dangerous condition and he displayed to his fellow Councilmen slivers of crumbled steel taken from a girder under the bridge. The city engineering department is making temporary repairs in order to make the bridge safe for travel, but it is expected that the Councilmen will be called upon soon to order the reconstruction of the structure.

## WILL HOLD SLIPPERY PRISONER.

Reduced Bail is Refused Assured Auto Taker Who Escaped from Guard.

When the attorney representing Lewis G. Brown, wanted on a charge of violation of the Dyer Act, in taking an automobile from one State to another without the consent of the owner, made a motion in U. S. District Judge Bledsoe's court yesterday for a reduction of the bail of his client from \$1000 to \$2000, he met the surprise of his life.

"What about this case?" the court inquired of Asst. U. S. Atty. Green. "This man is a member of a gang of automobile thieves that operated along the Mexican border line," was Mr. Green's reply. He was captured at Fresno, but made his escape from Dep. U. S. Marshal Sidney Shannon. He was captured at Honolulu.

"That's enough," said the court. "He will not be allowed to go on a reduced bail. We have him now, and we'll hold on to him."

## INTOXICATED ROOSTER EXPOSES MOONSHINER.

FOWL OWNED BY MILLIONAIRE AID TO OFFICIALS IN QUEST OF LIQUOR'S SOURCE.

**[EXCLUSIVE DISPATCH.]**  
SANTA BARBARA, July 25.—An intoxicated rooster turned up an alleged moonshiner, an Italian named J. Rosci, living on Valley Road, Mendocino, today. Under the shadow of the palaces of the millionaires of that section, say the officers, the Italian has been carrying on a profitable business for some time.

This morning a Brahma rooster, a blue-ribbon bird, wandered with him along the way kept up an uproarious crowing. He was feeling unusually good. The owner of the bird, whose name the officers withheld because of his national prominence, hearing the hoisterous crowing, investigated. He found the rooster staggering about, stepping high and crowing with each lunge forward. Several hens were also in this unusual condition, cackling and cutting dices. Not recognizing the symptoms, though suspicious, the multimillionaire sent for a poultry expert.

"He's drunk," said the expert, as he shot a glance at the Brahma, who by this time was down but still boastful.

Sheriff James Ross and Deputy Sheriff John Long and took up the Brahma's trail. It led to the moonshining plant, and a quick search of the premises revealed the man was arrested, and the officers say a large amount of the intoxicant was confiscated.

**SAN DIEGO WANTS COLORADO WATER.**  
OFFICIALS READY TO OPPOSE PLAN OUTLINED IN ARTICLES PUBLISHED HERE.

**[EXCLUSIVE DISPATCH.]**  
SAN DIEGO, July 25.—The City Council and Mayor John L. Bacon today went on record as opposed to any attempt of any city or interests to secure the water and power rights of the Boulder Canyon dam site in the Colorado River. The city will protest against development of the project by any city or group of cities or individual interests and will file a protest with the United States Reclamation Service.

The City Council and the Mayor voted to hold a conference with City Attorney S. J. Higgins to determine what action is necessary to protect any future interest the city of San Diego may have in common with Imperial Valley in the big Colorado River project. The action of the Council was precipitated by published reports that Los Angeles had started a movement to develop the Boulder Canyon project.

Councilman Don Stewart said this morning that while San Diego could develop water for a population of 150,000 it could not develop enough to cope with irrigation necessities and the city would have to draw on the Colorado River and should look ahead to cover the situation.

**OFFER CONDOLENCES.**  
Mrs. Martin G. Carter, secretary of the county grand jury, and Dr. Carter, psychiatrist at the County Hospital, yesterday received many expressions of sympathy because of the death of their 4-year-old daughter Grace Helen, who died on Sunday of heart trouble. Funeral services will be conducted at 2 p.m. today in the chapel of Cunningham & O'Connor. The body will be taken to San Francisco for burial in the Carter family vault in Holy Cross Cemetery.

### 7% Farm Mortgages

Approved for Investment by Banks

You who are from Minnesota or other Middle Western States need not be told of the strong security that is back of Minnesota farm mortgages.

It may be that you are personally acquainted with the owners of some of the farms on which these mortgages are based.

**Investigated and Approved**

The mortgages we offer are of such unquestioned security that the Merchants Trust and Savings Bank of St. Paul has invested its own funds in these mortgages before offering them to the public.

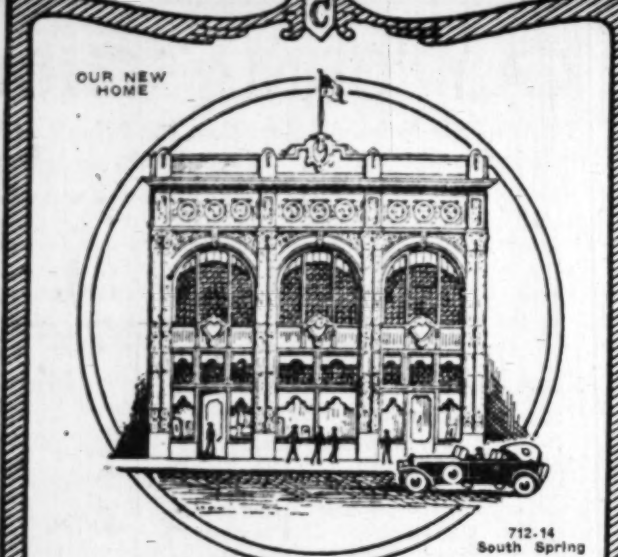

Every one of these mortgages has first been passed upon by a banker in the community where it originated. Then, after a careful examination by an expert farm appraiser, they have all been approved by the Investment Committee of the Merchants Trust and Savings Bank. Hence, they will bear the very closest investigation. We collect the Principal and Interest without charge.

We specialize in Minnesota, Iowa and Middle Western municipal and corporate bond issues and will be glad to mail you a list of these desirable securities.

### Strength is Developed by Chicago Wheat.

(EXCLUSIVE DISPATCH)  
CHICAGO, July 25.—After a quiet start, wheat prices advanced today, with the market for the most part steady. The advance was due to a report that the government had decided to purchase 100,000 bushels of wheat for the navy, and to a report that the government had decided to purchase 100,000 bushels of wheat for the navy.

### APPLE STOCKS POOR; PRICES RANGE WIDELY.

HOME - GROWN CANTALOUPES NOW MAKING APPEARANCE; FIND READY MARKET.

Prices for new apples ranged from 50 cents to \$1.10 according to the quality of the fruit. A considerable quantity of the stock is green and looking in color, and prices advanced on the average of 10 to 15 cents a bushel, prices being especially firm. Most of the stock being offered for sale, most of the stock being offered for sale, most of the stock being offered for sale.

### FINANCIAL AND TRADE REVIEW.

(Continued from Eighth Page.)

Henry H. Dangberg settled in the Carson Valley, Nevada, in 1917, fourteen years after his father, Kit Carson, had guided him to the valley. The territory and Carson was honored by having the valley and its river named for him. Today the Dangbergs own 33,597 acres, and the company's affairs are managed by H. F. Dangberg and John H. Dangberg, sons of Henry F. Dangberg, both of whom were born in the valley.

The company's holdings include 3420 acres of hay and grain, irrigated, 4520 acres of arable land now under canal, the remainder being meadow and pasture land and grazing ranges. The oldest water right in the Carson River Valley belongs to the company and provides adequate water for all cultivated crops and pasture, the company maintaining 250 miles of ditches, laterals and canals.

The net quick assets of the company, representing inventories of live stock and farm products, accounts and bills receivable, cash and Liberty bonds, total \$707,444, and the mortgage covering the bond issue provides that net quick assets must be maintained by the company at all times during the life of the bonds in an amount to equal at least 50 per cent of the outstanding bonded indebtedness.

### IN REVIEW.

Dun's Review says: A further lowering on discount rates, both here and abroad, gives added proof of an easier credit position and the continued liquidation in different quarters is steadily making for more wholesome fundamental conditions. The significant fact is not that activities in some lines have increased moderately during a normally quiet period, but rather that forces which are essential to progress are now exerting greater influence. Where inevitable readjustments have provided a basis for commercial revival, the recovering movement is slowly gathering momentum with more disposition to anticipate forward requirements.
